CAPABILITIES OVERVIEW

Building on the strong foundation of Advanced IT Concepts (Advanced IT) LLC, **Advanced IT Management Company (AITCMC)** operates an established International Programs Office (IPO) in Riyadh, Saudi Arabia, dedicated to supporting Foreign Military Sales (FMS) and allied defense programs. Leveraging Advanced IT's proven success delivering technology services, engineering, training, and complex systems for U.S. defense customers, the Riyadh IPO focuses on enabling mission-aligned FMS execution through network engineering, IT infrastructure, cybersecurity, training and simulation support, logistics coordination, and acquisition and program support for U.S. and partner-nation forces.

OUR VISION

To be the most trusted and agile technology partner for defense, federal, and public sector organizations worldwide, recognized for delivering mission success through innovation, technical excellence, and the rapid deployment of skilled teams that keep our nation secure and ready for the future.

CORE CAPABILITIES

IT Enterprise Services

Secure, scalable enterprise IT solutions that modernize and sustain critical networks and systems. Services include engineering, integration, network upgrades, cybersecurity integration, and lifecycle sustainment.

Training Operations & Maintenance Support

End-to-end support for training devices, simulators, classroom systems, and range equipment. We ensure high availability, faster accreditation cycles, and continuous warfighter readiness.

FMS Advisory & Training Support Services

Full-spectrum FMS support for allied partners worldwide, including logistics, program management, fielding, human capital development, and in-country technical training.
