WE MAKE IT HAPPEN

Building on the strong foundation of Advanced IT Concepts (Advanced IT) LLC, **Advanced IT Management Company (AITCMC)** operates an established International Programs Office (IPO) in Riyadh, Saudi Arabia, dedicated to supporting Foreign Military Sales (FMS) and allied defense programs.

Leveraging Advanced IT's proven success delivering technology services, engineering, training, and complex systems for U.S. defense customers, the Riyadh IPO focuses on enabling mission-aligned FMS execution through network engineering, IT infrastructure, cybersecurity, training and simulation support, logistics coordination, and acquisition and program support for U.S. and partner-nation forces.

## OUR VISION

To be the most trusted and agile technology partner for defense, federal, and public sector organizations worldwide, recognized for delivering mission success through innovation, technical excellence, and the rapid deployment of skilled teams that keep our nation secure and ready for the future.

## OUR PROMISE

**Mission-Focused. People-Powered. Performance-Driven.**

These values drive everything we do, ensuring that our solutions meet mission demands, empower teams, and deliver measurable success.

## CORE SERVICE AREAS

### Secure, Scalable IT Modernization

We deliver mission-ready IT solutions that modernize and sustain enterprise networks and systems, enhanced with integrated security and cybersecurity protections.

**Focus:** resilient infrastructure, adaptive architectures, and long-term maintainability.

### Training Operations & Maintenance Support

From flight simulators to ground systems, our teams keep warfighters mission-ready across 400+ locations. We provide O&M for TADSS, classroom devices, range tech, and simulation systems to ensure high availability and rapid accreditation.

### FMS Advisory & Training Support

We strengthen allied nations through fully fielded and sustained Foreign Military Sales (FMS) programs. Services include logistics, program management, fielding, and in-country training, delivering U.S.-grade capability worldwide.

### Joint Task Force Operations

Our cadre of former senior military leaders provides operational planning, JTF design, execution support, and real-world interoperability guidance for large-scale and combined operations.
