GLOBAL IMPACT & REACH

Advanced IT Management Company (AITCMC), a subsidiary of Advanced IT Concepts (Advanced IT), extends Advanced IT's global mission through an established International Programs Office (IPO) in Riyadh, Saudi Arabia, dedicated to supporting Foreign Military Sales (FMS) and allied defense programs.

Leveraging Advanced IT's more than two decades of experience delivering advanced IT, systems integration, training, and simulation solutions to the U.S. Department of Defense and federal agencies, AITCMC enables seamless execution of FMS programs across the Middle East. Our presence in Saudi Arabia strengthens coordination between U.S. program offices, industry partners, and partner-nation stakeholders, ensuring mission alignment, compliance, and operational success.

COMPREHENSIVE FMS LIFE-CYCLE SUPPORT

AITCMC provides end-to-end support across the FMS program lifecycle, from pre-award planning through sustainment and close-out. Our services include requirements definition, acquisition and logistics coordination, IT infrastructure and network engineering support, cybersecurity alignment, training and simulation support, and program and project management.

Operating under the Advanced IT enterprise, AITCMC supports the delivery, integration, testing, deployment, and sustainment of complex systems while ensuring compliance with U.S. government security, export control, and program management requirements. This lifecycle approach enables partner nations to receive, field, and operate capabilities efficiently and securely.

PROVEN DEFENSE & PROGRAM EXPERTISE

AITCMC draws on the depth and credibility of Advanced IT's leadership and workforce, which collectively bring over 150 years of military, government, and defense contracting experience. Our team includes former senior military leaders, program managers, engineers, and technical specialists with firsthand knowledge of joint, coalition, and partner-nation operations.

This expertise allows AITCMC to effectively bridge operational needs, acquisition processes, and technical execution, ensuring FMS programs are delivered on time, within scope, and aligned with mission objectives.

ABOUT AITCMC

With offices in Riyadh, Saudi Arabia, Advanced IT Concepts Management Company (AITCMC) serves as Advanced IT's regional hub for Foreign Military Sales and international defense support. As part of the Advanced IT enterprise, AITCMC benefits from the scale, infrastructure, and proven past performance of a trusted U.S. defense contractor supporting global missions.

AITCMC's operations are reinforced by access to Advanced IT's secure logistics, integration, and testing capabilities, as well as a cleared workforce experienced in supporting sensitive defense programs. This integrated model enables reliable delivery, secure handling of equipment and data, and effective coordination with U.S. and partner-nation stakeholders.

WE MAKE IT HAPPEN

AITCMC IS YOUR TRUSTED FMS TECHNOLOGY PARTNER

WE MAKE IT HAPPEN

OUR VISION

To be the most trusted and agile technology partner supporting U.S. defense, federal, and allied organizations worldwide, delivering mission success through innovation, technical excellence, and the rapid deployment of skilled teams that keep forces secure, interoperable, and ready for the future.

OUR PROMISE

Mission-Focused. People-Powered. Performance-Driven.
We place skilled professionals across critical defense programs to empower U.S. and partner-nation forces. We get the job done right the first time and hold ourselves to elite standards of execution and accountability.

MISSION FOCUSED, TECHNOLOGY DRIVEN

Advanced IT Concepts Management Company supports U.S. military programs and allied partners by delivering the people, technologies, and capabilities at the right time. Through Foreign Military Sales (FMS) and joint operations, our capabilities span cybersecurity and IT services, engineering and simulation support, and program management and training systems.

Operating globally across CONUS and OCONUS locations, including Saudi Arabia, we enable operational readiness, technical precision, and mission agility for coalition and partner-nation forces.

SERVICES & CAPABILITIES

Secure, Scalable IT Modernization

We deliver mission-ready IT solutions that modernize and sustain critical networks and systems in support of U.S. and allied defense missions. Our integrated cybersecurity approach ensures systems remain resilient, adaptable, and compliant across multinational and FMS environments.

Training Operations & Maintenance Support

From high-fidelity simulators to deployed training systems, Advanced IT supports training, operations, and sustainment efforts that keep forces mission-ready across domestic and international locations. We ensure operators have reliable, realistic environments to sharpen skills and maintain readiness in joint and coalition contexts.

FMS & Joint Operations Support

We support senior military leaders and partner-nation stakeholders in designing, organizing, and executing effective FMS-enabled joint and coalition operations. Backed by former U.S. military colonels, generals, and senior leaders, we bring deep expertise in joint mission execution, interoperability, and real-world operational integration.

WHO WE SERVE

We are the trusted partner to U.S. and allied defense, federal, and public sector organizations, including:

- **U.S. Army –** PEO STRI, ISEC, NETCOM, USAICoE, USACoE, ARCYBERCOM
- **U.S. Navy –** NAWCTSD
